Prefatory

IN issuing from year to year lists of society people in the prominent cities of the Pacific Coast, we feel that we are doing good and beneficial work. In the constant interminglings arising from business, health, or pleasure seeking, it is well to know and convenient to have at hand the names of those who are most conspicuous in the several centers of population by virtue of their social standing, which is to some extent a guarantee of respectability and merit. Society has its forces, equal or superior to the powers of mind or money. Success in life as often depends on social standing as on money or intellectual ability. Then there is the quality of culture to be considered; social intercourse is the great and fundamental civilizer, without which there could be no advancement, nor any of those refining influences which elevate and purify mind and morals, and lie, indeed, at the foundation of all progressional phenomena.

It is the aim of the Publishers to make this book as correct and useful as possible, to insert the names of all persons entitled to a place in the work, and to exclude all those not having a right to a place therein. A canvass is made and the work re-written anew every year. New features are constantly being added, and the publication is kept abreast of the times in every particular.

Suggestions from Patrons are always thankfully received.

IRVING INSTITUTE

UNDER the management of the Rev. EDWARD B. CHURCH and wife, has been well known for many years past as a thorough training-school and refined Christian home for young ladies. It is situated at the corner of Valencia and Hill streets, San Francisco, in a portion of the city highly esteemed for its climate and healthfulness. It has always maintained a high standard of scholarship, and in consequence has enjoyed a continuous and steadily increasing prosperity. While, by means of the Valencia street cable-cars, it is within a few minutes' ride of the heart of the city, it is yet only five minutes' walk to the hills, where the full benefits of the country can daily be enjoyed.

The buildings are commodious and sunny, and equal in convenience, elegance, and comfort to those of any other institution on the Pacific Coast. The schoolrooms, reception rooms, music, and art rooms are all well adapted for their uses, while the Assembly hall, twenty-eight by sixty-three feet in dimensions, gives fine opportunity for indoor exercises, gymnastics and dancing, and is well adapted for rhetorical exercises, musicales and lectures. The library is supplied with over one thousand choice volumes; and the reading-room, with the leading periodicals, is bright and cheery, and opens into the plant conservatory.

The regular course of study includes all the usual preparatory subjects taught according to the most approved methods, with such of the higher or collegiate studies as may be necessary for an intelligent understanding of the best current literature on philosophical and scientific subjects. The modern languages are taught by the natural method, conversationally and practically, giving ease and freedom in the use of the foreign tongue. The monthly musicales, rhetorical recitals and home receptions enable the young ladies to put in practice the systematic instruction given by the lady principal in manners and social usages, and to acquire that ease and grace of bearing which is so essential to a lady.

The young ladies, at the request of parents, are taken to concerts and lectures, and to hear the most noted singers and actors in opera and the standard drama. They also have access to the libraries, cabinets and art collections of San Francisco. The Institute has a cabinet of minerals and geological specimens, chemical and philosophical apparatus, a compound microscope and an astronomical telescope, and photographs of the best specimens of European architecture, sculpture and painting. The classes in drawing and painting are conducted on the principles of the best European art schools, by teachers thoroughly qualified, and under the oversight of the lady principal, who spent some time in Europe in special study of the fine arts and art methods.

The discipline of the school, without being harsh or severe, is all that the most careful parent could wish. Truthfulness, economy and right habits of thought and action are inculcated and encouraged. The pupils express their thoughts and wishes freely to principals and teachers as to friends who have their best interest at heart, and response is given accordingly. This cordial frankness and mutual sympathy is a marked characteristic of the school, and is the surest foundation of a happy school-life and a true culture.

PRINTING

WE think at the present day there is nothing so cheap as printing, but *cheap looking* printing is an eyesore, and stamps the house using it as a poor concern, poorly managed. Printing may be done cheaply and yet have a clean, tasty appearance, if executed in a well-equipped office, by first-class, practical men, and it may have a very inferior appearance if done in a poorly equipped office, with inefficient workmen. We think it would pay you to try our Printing Office, which is situated at . . . .

Cosmos Club

Club Building, 317 Powell Street

The Cosmos Club was organized in 1881, and was incorporated in 1883. The membership is extensive, and the number of Army and Navy members is greater than in any of the other Clubs. The aim of the organizers to keep this Club the most select in the city has been pre-eminently successful, and its position as such is generally conceded. Every three months the members give a banquet in their elegantly furnished club-house.

TWO POINTS

The value of advertising depends upon two things; the class of people who read the announcement and the circulation of the medium through which it is made. The **EXAMINER** submits for your consideration two facts.

FIRST. That it reaches the great buying class of San Francisco and the Coast—the live, enterprising people who read advertisements and take advantage of the offerings made by advertisers.

SECOND. That its circulation exceeds that of any other San Francisco daily paper by at least 12,000 to 15,000 copies per day.

These are simple propositions, both capable of demonstration, and together worth your most careful consideration. Though the **EXAMINER'S** advertising rates may appear to be high, the fact that the paper reaches the people and more of them than any other medium, and that the class of people reached is the buying class, renders it the medium par excellence for the retail dealer of San Francisco.

Circulation greater than that of any two Dailies of the Coast.
Daily, 60,800; Sunday, 73,500; Weekly, 72,500.

Do You Take as Good Care of Your Feet as You Do of Your Teeth?

NO? WHY NOT?

Are they not as important? Or is it because you can't spare the time, or that it costs too much, or that you don't know a first-class Chiropodist? The undersigned having opened an office at

323 KEARNY STREET

for the treatment of the feet, invites you to call at his rooms from 10 to 12 and 2 and 4. You will not be detained long. The service is first-class and charges moderate.

In addition to removing Corns, Callouses, Inverted Nails and Bunions, Moles, Warts and Birth Marks, are removed without the use of the knife.

B. C. DUFFY, Chiropodist

Remember the number, **323 Kearny Street.**

Special appointments can be made outside of office hours to treat patients at the office or at their residence. ☞ Cut this out and keep it.

Gas and Gasoline Engines

No Batteries or Electric Spark to care for. Makes no smell or dirt
No double or false Explosions, so frequent with the unreliable spark
It oils itself Automatically. Just light the Burner, turn the wheel, and it runs all day
It runs with a cheaper grade of Gasoline than any other Engine, and consequently it COSTS LESS to run it
For Simplicity it Beats the World. It has fewer parts, and is therefore less liable to get out of order than any other Gas or Gasoline Engine now built.

SITUATED about midway between Oakland and Piedmont and traversed by the Piedmont cable road, is the most central and beautiful residence location to be found along the entire line of the road. The lots are large, and almost every lot affords a magnificent and unobstructed view in all directions. The altitude insures pure air and perfect drainage facilities, and the temperature averages eight degrees warmer than in Oakland. The avenues are being graded and macadamized and a complete sewerage system has been arranged. A number of fine residences have been erected and occupied by purchasers of lots, and the land is sold with restrictions as to the value of buildings, insuring a fine neighborhood. Present prices are VERY LOW and favorable terms are offered, especially to those who intend building. Houses built to suit and sold on easy payments. For particulars inquire of

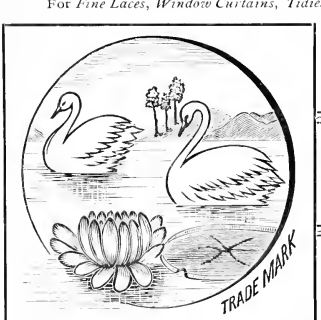
TO THE LADIES

Your attention is respectfully called to the Celebrated **QUEEN LILY SOAP,** which has now been on the market for Twenty-five years, and has earned a *reputation* which it justly *deserves.*

For *Fine Laces, Window Curtains, Tidies, Family Linen, etc.,* it is unsurpassed, leaving the article washed *lily* snow white and agreeable to the smell. Woolen Goods being washed with this *Queen of Soaps,* are soft and silky to the touch. The labor is less, and in consequence the articles washed especially Fine Fabrics, are worn less by going through this washing process.



The Queen Lily Soap

Is *unsurpassed* in cleaning *painted* work in the house. In fact, purchasers will find that, although apparently high in price, it is, in reality, the cheapest of *Extra Good Soaps.*

☞ Use according to directions on the wrapper.

The Portland Rowing Association

This Association is an incorporated institution, and its duration, in the Articles of incorporation, is placed at fifty years. It was incorporated Nov. 13, 1879, and re-organized April 3, 1880. Its object is the mental and physical improvement and training of young men. It owns a fine boat house and a number of shells, pleasure boats, outriggers, etc., and among its membership are included the representative young men of Portland Society. During the summer the boat house is a favorite resort of all who like aquatic sports, and the club holds an annual regatta, at which prizes are competed for by the several crews which the club can muster.

The Concordia Club

This Club, which is the most prominent Jewish social organization in the city, was organized in October, 1878, and includes the best Jewish citizens of Portland among its membership. It is constantly adding to its list of members, and is in a most flourishing condition; a project is now on foot to erect their own building. The present club-rooms, however, are handsomely fitted up and conveniently located in the Mulkey Block, corner Second and Morrison streets.

Victoria

I KNOW where you can get a piece of fine land for taking it, if you will—Government Land. Not that you have to live on it to acquire title under the Homestead Act, however—that isn't the plan at all. You can put your papers for it in your pocket and go to Chicago if you wish.

YOU SEE, the idea is this: We are building a large water system for the irrigation of the beautiful Honey Lake Valley. The land there can be acquired from the Government by citizens in limited quantities only (40 to 320 acres to each, man or woman, married or single) under the Desert Act, without residence, and all the requirements of which can be attended to for you by us in your absence. We want to get customers for the water we will have to sell—Uncle Sam won't buy it to irrigate with—so we will help YOU to a few choice acres.

It's a beautiful valley, with level, rich land, and in its center a fresh water lake a hundred square miles in area. A railroad runs through it, and the new one projected to Salt Lake will cross it.

I'll tell you all about it if you'll write or call.

ST. JOSEPH'S SEMINARY

AND EPIPHANY APOSTOLIC COLLEGE

FOR COLORED MISSIONS

There are in our land fully 8,000,000 negroes, of whom hardly two hundred thousand are Catholics. A double duty, as Catholics and as Americans, lies upon us. St. Joseph's Seminary and the Epiphany Apostolic College will help in part to fulfil these duties. They need subjects who will devote themselves to this Apostolic work. They are entirely dependent on alms.

LOCATION

The College is located at Highland Park, Oakland, California, upon an eminence some two hundred feet above the bay, overlooking the City of Oakland, and commanding a view of San Francisco Bay, from the Golden Gate to San Jose. A campus of twelve acres is beautifully set in shrubbery and trees, and laid out in drives and walks. The horse cars pass the College gate, connecting with steam trains at East Oakland depot for San Francisco, San Jose, Sacramento, and all interior points.

THE BUILDINGS

"Mary Stuart Hall" is a magnificent building, of old Roman style, built of stone, brick and wood, containing the Assembly Hall, Recitation Rooms, Libraries, etc.

"Gray Mansion." This is a beautiful and sunny building with a south frontage of 93 feet, and three stories; is the home of the young ladies.

"Hook Memorial" was erected in 1889; this modern and pleasant building is the home of the young men.

To Authors

Books neatly and quickly printed and published, and on the most favorable terms. We have done and are doing more of this kind of work than all other houses in the country combined . .

Do you want a Catalogue Printed?

See our work and obtain our estimate. So with regard to any printing. Fine work of every description a specialty . . . . . .

WHILE booksellers are failing on every side, and settling with their creditors at 25 or 50 cents on the dollar, THE BANCROFT COMPANY continue the even tenor of their way, as they have done for thirty-six years, owing no one anything, buying only for cash, thereby enabling them to undersell all competitors . . . . . .

Every day new goods are received, and every day special and general orders are sent out for whatever is required which may not be in stock . . . . . .
